16th July, 1959.

COCOM Document No. 3616 B

COORDINATING COMMITTEE

MEMORANDUM BY THE ITALIAN DELEGATION

EXPORT OF SILICON OIL TO THE U.S.S.R.

The Italian authorities have received a request to license the export to the Soviet Union of the following products:

Item 1735(b)	Silicon grease	100 grs.
--------------	----------------	----------

to the total value of \$ 16.

The abovenamed products are to be delivered to Technopromimport in Moscow and will be used in the working of a "fractovat" apparatus.

The present request is submitted to the Committee within the framework of the exceptions procedure set up for minimum shipments (Annex A to COCOM Doc. 1473).

In view of the very limited quantity of the goods, which, moreover, have no strategic significance, the Italian authorities wish to grant the licence requested and would be glad if Member Governments would be good enough to make their views known by the 27th July 1959.
